The Convenient, Extra-Strength, Universal Cleaner

Electro-Wash® MX is the plastic safe, heavy duty cleaner used to remove the toughest soils. Whether you're removing oxidized grease from motors, soils from hand tools, surface contaminants from cables, solder paste residue from stencils, or airborne deposits from control panels, Electro-Wash® MX is the right cleaning solution for all of your cleaning needs. Available in a convenient aerosol, or pre-moistened and ready to use wipe, Electro-Wash® MX is the quick and easy way to clean any surface, anytime and anywhere.

Features:

- Removes organic and ionic soils
- Easily removes flooding compounds
- Moderate evaporation rate
- Plastic safe
- Leaves no residue
- Aerosol cleans soils from hard-to-reach areas
- Presaturated wipe and tub are great for toolbox or travel

Benefits:

- One cleaner for all soil types
- One-step clean and dry process
- Increased cleaning power
- Safe to use on most surface types
- No rinsing necessary
- Easy application for great results
- Portability increases ease-of-use

Applications:

- Fiber optic connectors and end faces
- RF and datacom cables
- Hard-line coax cable
- High voltage cables
- Metal and fiber optic cable splices
- PC boards
- Hybrid circuits
- Electronic assemblies
- Motors and transformers
- Control systems
- Screens and stencils
- Uncured epoxy
- Metal cleaning
- Hand tools and equipment
- Service centers, repair vehicles

We've got the right product for your application

Whether your looking for ozone safe replacement chemistries, trying to work simpler and safer, looking to increase your productivity, or just save money, ITW Chemtronics® has the right product for your application.

ITW Chemtronics® can show you how to reduce your inventory and vendors, improve your processes, and achieve cost savings while providing you with all the product support and training you will need.

An ITW Chemtronics® representative will work with your plant or process engineer to compile a company profile to determine the best course of action. Our sales and technical services staff are ready with expert guidance on selecting the right product for your applications.
